HARDY PLANTS for SPRING 1954

DELPHINIUMS. 2¼ in. pots: \$10.00 per 100; 300 & up at \$9.00 per 100

Clividen Beauty. Light blue.

Lamartine. Deep blue with white eye.

Blackmore & Langdon Hybrids. A good strain of mixed colors.

DAISY. Shasta June. 2¼ in. pot: \$15.00 per 100; 300 & up at \$14.00 per 100
This new variety as a cutflower rates well with florists. Winter hardy; blooms for a long season. The sturdy stems reach a height of 18 inches or more. Large flowers with three or more notched petals slightly recurving.

GYPSOPHILA. Bristol Fairy. Strong 1-yr. field grown: \$30.00 per 100

Rosy Veil. Strong 1-yr. field grown: \$15.00 per 100

EUONYMUS. In view of a rapidly increasing demand for Euonymus in the trade, we are steadily expanding our stock of this valuable item. We are in position to furnish the following in quantity lots.

Acutus. A fine prostrate, densely spreading vine, forming an evergreen carpeting ground cover unexcelled. The leaves are a shining dark green, acute in shape and of heavy texture. Thrives in full sun or in shady locations.
2¼ in. pot plants: \$15.00 per 100; 300 & up at \$12.50 per 100

Coloratus. Purpleleaf wintercreeper. Excellent ground cover for banks or other large areas. When planted at the base of walls or building foundations it forms a dense growth, ascending when given support. It quickly makes an evergreen screen when planted on partition fencing. The leaves assume a purple coloring in autumn.

2¼ in. pot plants: \$12.50 per 100; 300 or up at \$10.00 per 100

Field Grown, 1-yr.: \$25.00 per 100; 300 & up at \$22.50 per 100

Radicans Erecta. Large-leaf. An upright, compact shrub, not exceeding 3 ft. in height and spread, with numerous branches. May be sheared into hedge form or featured in landscape plantings. Its foliage is rich green, remaining well through the winter months.

2¼ in. pot plants: \$12.50 per 100; 300 & up at \$10.00 per 100

Radicans Erecta. Small-leaf. This type attains a height and spread of about 18 inches. Effective as a low hedge when kept sheared. May also be used for interplanting among taller evergreens as well as for facing down such plantings.

2¼ in. pot plants: \$12.50 per 100; 300 & up at \$10.00 per 100

Field grown, 1-yr.: \$25.00 per 100; 300 & up at \$22.50 per 100

LYTHRUMS. Field grown, 1-yr.: \$16.00 per 100; 300 & up at \$14.00 per 100

The Lythrums are among the most satisfactory of garden subjects, being entirely winter hardy and blooming for a long season through summer and early fall. They thrive in low-lying locations as well as in dryer grounds in full sun, especially with an occasional heavy watering.

Morden Pink. Many stems covering with small pink flowers. 4 ft.

Dropmore Purple. Spikes of purple-blue flowers. 3 ft.

Prolific. Deep Persian-rose; broad strong growth. 3 ft.

Robert. A neat lower growing variety of much merit; Florets carmine-rose in dense formation. 15 inches.
